## Table of contents

Chapter 1 - General introduction.	6
Chapter 2 - Verkaik M, van Poelgeest EM, Kwekkeboom RFJ, et al. Myocardial contrast echocardiography in mice: Technical and physiological aspects.	36
Chapter 3 - Turaihi AH, van Poelgeest EM, van Hinsbergh VWM, Sern. EH, Smulders YM, Eringa EC. Combined Intravital Microscopy and Contrast-enhanced Ultrasonography of the Mouse Hindlimb to Study Insulin-induced Vasodilation and Muscle Perfusion.	57
Chapter 4 - Van Poelgeest EM, Jimenez CR, Paulus WJ et al. Endothelial AMPK regulates insulin-dependent perfusion, systolic function and protein expression in the myocardium.	77
Chapter 5 - Van Poelgeest EM, Emanuel AL, Sern. E et al. Myocardial insulin-induced microvascular recruitment is increased in physically active individuals and is associated with increased ventricular function.	107
Chapter 6 - Van Poelgeest EM, Emanuel AL, Nieuwdorp M et al. Impaired insulin-induced myocardial microvascular recruitment is restored by exercise and Iloprost in type 2 diabetes.	122
Chapter 7 - Van Poelgeest EM, Fisslthaler B, Fleming I et al. Endothelial AMPK $\alpha$ 1 controls fasting and hyperinsulinemic skeletal muscle perfusion independent of muscle insulin sensitivity and contraction-induced microvascular recruitment.	141
Chapter 8 - Van Poelgeest EM, Turaihi et al. Endothelial AMPK in perivascular adipose tissue mediates the protective effects of physical activity on insulin-mediated microvascular recruitment in skeletal muscle.	158
Chapter 9 - Van Poelgeest EM, Emanuel AL, Smulders YM et al. Physical activity determines microvascular recruitment during Intralipid infusion and hypercaloric diet.	175
Chapter 10 - Turaihi AH, van Poelgeest EM, Sern. E et al. Endothelial cell insulin receptors are necessary for insulin-mediated microvascular recruitment but not for whole-body glucose homeostasis: Proof from endothelium-specific insulin receptor knockout mice.	194
Chapter 11 – Emanuel AL, Poelgeest EM, de Clercq NC et al. Iloprost infusion prevents the insulin-induced reduction in skeletal muscle microvascular blood volume but does not enhance peripheral glucose uptake in type 2 diabetic patients.	204
Chapter 12 - General summary.	213
Chapter 13 - General discussion.	217
Chapter 14 – Short English summary.	234
Chapter 15 – Nederlandse samenvatting.	235
Chapter 16 – Dankwoord.	237
Chapter 17 – Curriculum vitae.	239
